AN ELABORATE BEDSTEAD.

What is stated to be the most elaborate bedstead over produced in Birmingham has been turned out to the order of an Indian Rajah, ... The style is what is known as the crown cappy, and is of the best brass throughout. It stands to the height of fifteen feet, is eight feet long, and six est wide, and will cost close upon fou figures. Surmounting each of the upright pillars is a bird with bood wings, and projecting from the sides are brackets carrying bronze figures symbolical of the seasons Officho head of the bed is a bronzo figure Bearing a white metal circular plaque with embossed portraits of the King and Queen, the Prince and Princess of Wales, and Prince Edward of Wales. On another please of bronged branch are plicategraphs of Lord Beaconsfield, Mr. Gladstone, Lord Salisbury, /Lord Posebery, Mr. /Balfour, and Mr. Chamberlain. At the foot of the bed are a clock and a baromoter, and 1111 detail 2 2181 beneath them a bronze inscription plate bearing the title of the potentate, for

whom and under whose special instructions

The new "Hitachi Maru" 6,500 tons, now being built at the Mitsu Bishi Yard, Nagasaki, was successfully launched on the 22nd inst. Miss Kondo Takako, third daughter of the President of the Nippon Yusen Kaisha, performed the ceremony of naming the steamer.

The Nippon Yusen Kaisha has ordered three atenmers bf 3,500 tons capacity to be built at Kohe for the Yang-tse service. For the same Company's line between Japan and Shanghai a pair of 2,700-ton boats are now being built in England; four of 8,000. cons cach are in course of construction in Japan for the Australian service; and two others for the same line have been ordered.

All the Russian troops having now returned from the Far East, the interesting statement is made that seventy-five steamers were engaged in the huge task of transporting them to Odessa and other Black Sea ports. The numbers were-922 officers, 140 doctors and officials, 21,409 regulars and 105,286 reservists, or a total of 127,814 men, as compared with the 40,000 reservists it was originally intended to bring back by sea.

A Notice to Mariners states that the following information has been received from the Commander of H.B.M.'s surveying-ship "Waterwitch." A pinnacle rock, with 13 feet over it at low water ordinary springs and depths of 6 to 9 fathoms (sand) close around; is situated with the pagoda on Pagoda Island at the entrance to Tong. sang Harbour bearing N. 2° E., distant 24 miles. During a moderate southerly swall broakers were observed on the sand snolls situated 31 miles S. 28° W. of Clipper Point, Namos Island. A rock, which has 16 feet over it at low water of spring tides, is situated with Squat Rock bearing N. 53" W., distant 31 cables; and a rock, which has 11 feet over it at low water of spring tides, is situated with Squat Rock bearing. N. 40° W. distant 3½ cables. All bearings given are magnetic.

WAR IN BALL

Appalling Carnage of Men, Women, and Children.

The Government Commissioner in Bali telegraphed as follows, under date of the 21st of September :- The Commanding Officer reports that, on the 19th instant; the troops in their forward march met with sexistance at Kesiman. The enemy did not stoutly defend the place, and the troops passed the night there. Ten pieces of cannon of different kinds, twenty-four muskets, and large quantities of ammunition and other weapons were found. Fortyfour more muskets were handed in. The Dutch loss was a few wounded.

On the 20th, the troops began the mench on Den Pasar, the capital. On the way they beat off attacks by spearmen. Mus-" ketry and artillery fire was kept up from the outskirts of Den Pasar. The troops forced their way in. In the engagement, the Raja perished with his Chiefs, his wives, and some children to the number of awo hundred. The corpse of the Raja was identified. The palace and neighburing buildings were found to be on fire. The troops marched to Pamechutan and eccupied it. They found there the corpses of of that Raja with this headmen, women and children to the number of hearly inco hundred. Several of the later had been stabled to douth. The enemy had burned " the large buildings, on the troops drawi g near. The troops cat ped that night in the palace and on the coor-fighting ground, The Dutch loss was four killed and twelve

"The Raturia Nieuvishad says that the

criemy at Den Pasar disputed every inch of ground and fought behind wall after wall. until moon on the 26th, when the troops had reached a spot about four hundred yards from the palace. There they beheld s fearful sight. The Raja of Badong scated on a litter with all his Chiefs, followers and women rushed inta body upon the 11th Regiment of Fort. The troops coolly awaited them. Suddenly four files fired a volley upon the enemy. The effect was terrible. Those of the enemy who did not fall or were not dragged down by the heaps of killed and wounded, dashed bravely upon the bayonets, defying the deadly fire. All were shot down. Those who reached the soldiers met death by the bayoned-Women climbed, upon the heaps of skin and stabbed themselves to death ! with krisses in sight of the troops. Fresh crowds of the enemy continued to onliesvour to break through the ring of fire and bayonets vainly at every attempt-all met their death. After this shocking scene, the troops moved slowly to the palace. Flames shot forth from it on all sides. Those left of the enemy had set it on fire. Den Pasar was evacuated by the enemy at 2 p. in. The troops marched then to Paulehutan, and occupied it without meeting with much resistance. At the place, too, there was a repetition of the slaughter. Multitudes of the enemy threw themselves upon the troops. The 18th Regiment, with the sid of Artillery, best the attack off. Hundreds of Balinese perished. The enemy then fired the palace there and field. The death of the Raja made the success complete. This probably means the end of the rebellion. The losses of the enemy in killed alone are estimated at one thousand. The people at the capital have submitted.—Strait Times.

WONDERFUL DISCOVERY This is the age of research and experiment, who a situature, so to speak, is raneacked by the scientific for the comfort and happiness of man. Science has indeed made giant strides during the past century, and among the—by no means least important—discreters in madicine comes that of Theraplon, particulars of which will be found in another commit. This preparation is unquestionably one of the most genuine and reliable Patent Medicines everint reduced, and has, we understand, been used in the Continental Hospitals by Ricord, Rostan, lobert. Velpeau, Maisonneuve, the well-known in the Continental Hospitals by Ricord, Rostan, Johert. Velpeau, Maisonneuve, the well-known Chassaignae, and indeed by all those who are regarded as authorities in such inatters, including the celebrated Lallemand, and Roter, by whom it was some time since uniformly adopted, and that it is worthy the attention of those who requiresuch a remedy we think there is no doubt. From the time of Aristotle downwards, a potent agent in the time of Aristotle downwards, a potent agent in the temoval of these diseases has (like the ismed philosopher's stone) been the object of search of some hopeful, generous minds; and far beyond the mere power—if such could ever have been discovered—of transmuting the baser metals into gold is surely the discovery of a temedy so potent as to replenish the failing energies of the confirmed swal in the one case, and in the other so effectually, speedily and safely to expel from the system without the oid, or even the knowledge, of a second party, the poisons of acquired or inherited disease in all their protean forms as to leaven o taint or trace behind. Such is The New French Remedy Therapion, which may certainly rank with, if not take precedence of, many of the discoveries of our day, about which no little estensive and ever-increasing demand that and the extensive and ever-increasing demand that has been created for this medicine wherever introhas been created for this medicine wherever intro-duced appears to prove that it is destined to cast into oblivious all those questionable remedies that were formerly the sole reliance of medical men. Therapion may be obtained in England, direct from the proprietor, and of the principal Chemists and Merchants throughout the Colonies, India, China, Japan, &c., not even excluding such remote districts as Control Africa, the Fiji Islands, St. Helena, &c.—Diamond in the Assertine, Kurnepagy

If any reliance can be placed upon Mr. Taft as a mouthpiece of the United Republicans are expected to contribute. States administration Cuba is to be President Roosevelt "gladly" contriallowed to work out her own destiny as soon as order has been restored. The reluctance of America to yield to the Imperial aspirations which are supposed to be cherished by the President and others of the Republican party who wish to see Cuba added to the territories of bribery and the limitation of the which have been brought under its sway in the last ten years by purchase or every man in the country who contributes a personal interest in the conquest, can be easily understood. Hitherto America's over-sea possessions have not supplied anything like an adequate return for the outlay they have necessitated. The United States, notwithstanding its huge population, is hardly likely to suffer from over crowding for many generations to come. Consequently there is no need for the territorial expansion which was formerly necessary to the very existence of Great Britain. Over-sea possessions have merely thrust the United States into the uncertainties and dangers of foreign politics and have created a number of problems which distract attention from important domestic questions which are demanding a solution. Cuba is an immensely rich country and it would probably be better for the world if it were taken over by a strong and wealthy power which could endow it with stable government and systematically develop its resources. By reason of the Monroe Doctrine the United States declared that no European power is be permitted to confer these advantage upon the rebellion-racked country. Logically then it should do it itself. INTERPORT CRICKET.

DINNER AT SHANGHAL

(From Our Correspondent.) SHANGHAI, October 5.

The Hongkong Cricket Team were entertained at dinner at the Shanghai

Club, last night. Mr A. P. Wood (Chairman at the Club) presided and among others present were :- Sir H. W. de Sausmarez (Chief Justice at Shanghai,) H. Keswick (Messre Jardine Matheson and

Company) and Commander Raikes. The Chairman, in proposing the health of the Hongkong Eleven, ex pressed his sympathy with the Colony for the damage suffered by the typhoon and complimented the team on the manly struggle they had made.

Mr R. Hancock replied on behalf of the Hongkong team and after referring to V. H. Lanning's splended howling presented him with a cap in commemoration of his having performed

A Crushing Defeat.

As we announced in our telegraphic columns last night Hengkong was soundly defeated by Shanghai, and the wide margin between the scores indicates how thoroughly the visitors were thrashed. Not one of Shanghar's supporters dreamt that such a crushing defeat would have been inflicted on the Hongkong Eleven, but on the other hand Shanghai themselves thought they would have to play "all out" to snatch victory from the match. Hongkong were favourites, and how did they justify that selection? In batting they were strong, The tables in the smoking room above bowling was good, and their fielding was the engines were blown into the air, and 'excellent-before the match. Against V. although there were several hair-breadth H. Lanning, however, their batsmen were useless; it seemed as though a "lot" set in early and each batsmen was worse than the preceding one; In bowling the Shanghai team were Hongkong's superiors and in fact in every department of the game. The wet wicket will be Hongkong's excuse but it will be a lame one, for on the same wicket that the visitors were dismissed for 46 the Shanghai Eleven rattled up 121. After that score by Shanghai it seemed possible that the wicket was improving and that Hongkong might stand a chance of retrieving her position but those hopes were soon dashed to the ground. The Hongkong team made a good start in the second innings three for 45 but before another twenty-two runs were scored the innings was over, and Hongkong had lost by 139 runs.

The averages are as follow :-BATTING.

Lately we have been greatly disturbed by the thought of threatened typhoons. Druce, R. W. K., Harry Hancock, Wm. The signal staff is being constantly loaded with the heavy unpicturesque looking cones and squares and double cones that indicate ALL COMERS. Hon. Dr. J. M. Atkinson | that a typhoon is up to its tricks in some region not very remote from us. We have W. Graham, R. W. K., Lt. J. U. got quite a scare about these terrible storms since reading of that awful tornado that swept across Hongkong and did such frightful mischief amongst the shipping there. We have had nuotorous brushes of typhoons but not one has caused any serious damage either to property or to life, and we are now hoping that the season is so far advanced that we shall not be troubled with any more this year.

benefit I have received from taking Dr Williams Pink Pills. It gives me the greatest of pleasure to recommend this mediane, new held in such favour-by the people of Ceylon, and you have my full permission to do whatever you please with my testimonial.

Disordered digestion is due to the organs of the body which digest the food having become congested and weak, and it is only by restoring to these organs their natural strength that cure can be obtained. Dr Williams' Pink Pills do this through the blood. The whole body is fed by the blood, each part in the whole physical system derives the power to do its work from the blood, and Dr Williams' Pink Pills for Pale People act directly on the blood, making it pure, healthy and strong. This is why these Pills are world-famous as the great remedy for disordered Liver, Indigestion, Early Decay. Nerrous Breakdown. Paralysis, Beri-Beri. In the same waythrough the blood -- they have cured -thousands of cases of Aniemia, Rheumatism, Sciatica, Lumbago Malaria, Skin Disorders, such as Eczema, Scrofula, Boils, and the after effects of Fevers, Dysenters, and Chills To women from youth to middlelife they have a special value at the frying times and men broken down by residence in unhealthy climates, overwork, or excesses are speedily restored to vigorous health by their use. Obtainable at most shops where medicines are sold these Pills for Passengers and is installed throughcan also be had direct from the Dr Wil- out with Electric Light. liams' Medicine Co., Singapore, who send six buttles for \$8/- or 1 bottle for \$1.50 are carried. post free to any address.
